## ON THE WAY TO SCHOOL...

A LITTLE WORD FROM OUR TEAM...

Dear Sponsors,

Our different projects have brought us to realize the meaning and importance for Nepali children to receive a quality education. Unfortunately, in Nepal, it is not every child's luck to go to school. Government schools are indeed free, but are very low quality, and additionally, there are still fees for books, uniforms, pencils, etc. We know that if we want a brighter future for Nepal, we need educated and strong children. We believe in education's power, in the individual's power to act, and in the young generation's power to act in the future. We know that it is these children that are poor, isolated, and that have lost their houses in the quake—who are the thinkers and creators of tomorrow—that will make the choices for their communities and families in the coming future. *We believe in them.*

To become a sponsor with Sambhava means enabling one child to have access to school; to give him the beautiful gift to choose and to create his own future.

Thank you from our hearts for your support,

The Team of Sambhava

## Sponsor a child.....

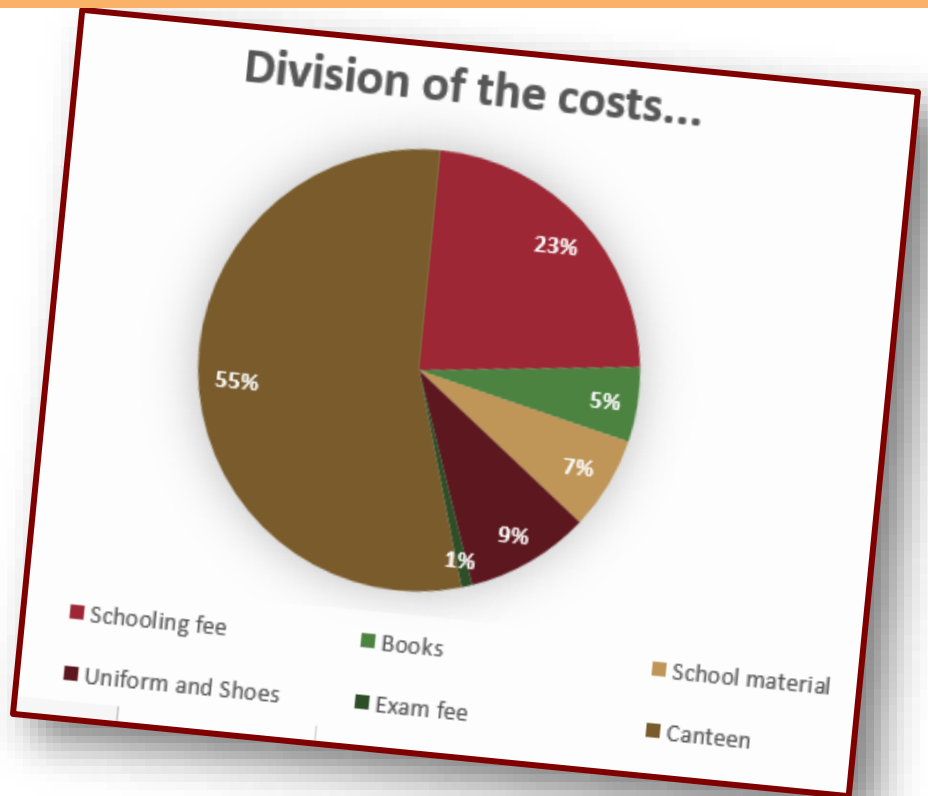

### How does it work?

We wish to allow our sponsors and their godchildren to create a bond and to maintain a relationship throughout the child's whole schooling. We know each of our children, we know their story, we met their families, and we visited them in their houses and lives... All Sambhava-children have specifically challenging life circumstances – not enough access to food and hygiene; housing that is not water-and/or windproof; and/or challenging family situations (no father, handicapped parents,...). This is what made us decide to enrol all of our children at the canteen at school, which allows them to at least eat one proper meal and one afternoon snack a day. The majority of our children are enrolled at Private Elegant School, with whose director Raju Chetri we have started a partnership to ensure that we regularly receive news on the wellbeing and education progress of our children.

If you decide to sponsor or co-sponsor one of our children, 100% of your money will go towards your godchild. For 30€ a month we can cover school fees, exam fees, canteen fees with one meal and one snack per day,

two uniforms including shoes, books and further material like notebooks and pencils for one child. To ensure that we can be stable on the commitment towards the child, we kindly ask you to only enrol as a sponsor if you can ensure your support up to grade 10 of your godchild. After grade 10 follows the college and we will get in touch

with you to find out how to continue from there. If you are unsure about your commitment, your support in the form of a regular or a one off donation will be highly appreciated.

## Application form

First name.....Last name.....

Address.....

E-mail.....

Phone.....

Payment via automatic transfer:

- I wish to sponsor a child and commit to sending 30€ per month
- I wish to contribute towards a child's schooling and commit to sending .....€ per month.

By signing this form you commit to accompanying a child in the long-term

Date..... Signature :

THANK YOU !!! 😊
